

GUIDED WALK 'Adaptation to Climate Change: Geelong's 21st Century Garden'

21 March, 2.00-3.00 pm and 24 March, 11.00-12.00 am

Take a guided tour of the Geelong Botanic Gardens' 21st Century Garden.

Designed and created in response to prolonged drought, the garden features plants which have adapted to water shortage both in Australia and around the world. The landscape is innovative and initially caused much discussion, both local and international. This unusual garden has much to teach

Geelong Design Week Guided Walks @ GBG

21 March, 1.00-2.00 pm

A guided tour to explore the Stormwater Harvesting Project in Eastern Park. The storm-water dam has created a natural wetland promoting diverse plant and animal life, as well as providing valuable water for Geelong's parks, street trees and Geelong Botanic Gardens.

BYO hat, sunscreen and mosquito repellent. Location: Geelong Botanic Gardens (corner Podbury Drive and Eastern Park Circuit), East Geelong. Meet your guide at the front gates.

This event is part of Geelong Design Week 2021, an initiative of Geelong UNESCO City of Design and the City of Greater Geelong
